5junchen9.github.io | github.com/5junchen9

RESEARCH INTERESTS

Embodied AI | Robot Learning | Learning-based Control

EDUCATION

Xi'an Jiaotong University

Xi'an, China

Bachelor of Engineering in Automation | Expected June 2028

- Comprehensive evaluation rank: 11/188 (top 5.9 percent; tied 10th).
- Relevant coursework: System Modeling and Dynamics Analysis (99), Numerical Computing Methods (96), Data Structures and Algorithms (95), Complex Functions and Integral Transforms (95), Programming Fundamentals (93), and Probability and Stochastic Processes (93).

RESEARCH EXPERIENCE

Intelligent Interaction Laboratory | Research Assistant

Present

Xi'an Jiaotong University | Advisor: Yunpeng Song

- Contributed to FlowFerry, a framework for generating and evaluating platform native large language model workflows, by training and evaluating experimental baselines.

Provincial Undergraduate Innovation Project | Project Lead

2025

Real-time ultrasonic TOF measurement of refrigerant concentration in oil

- Conducted theoretical validation of the experimental apparatus and contributed to the construction and setup of the measurement instruments.
- Co-authored the resulting conference paper as second author and organized experimental results for publication.

PUBLICATIONS AND MANUSCRIPTS

FlowFerry: Generating and Evaluating Platform Native Workflows beyond Static Evaluation. Yiheng Bian, Jiayou Zhang, JunCheng Wu, Lingyun Wang, Jiancheng He, Yunpeng Song, Zhongmin Cai. *Manuscript under review at AAAI 2027.*

Monitoring the Transient Concentration of Refrigerant in Oil Using Ultrasonic TOF Method. Che Wang, JunCheng Wu, Jianhua Wu. *7th IIR Conference on Thermophysical Properties and Transfer Processes of Refrigerants, 2025.* [DOI](#)

TECHNICAL SKILLS

Programming C++, Python

Robotics and machine learning PyTorch, MuJoCo, ROS 2

Development tools Git, Linux
